

# BIOGRAPHY

**Arthur B. Chmielewski,**  
**Manager, New Millennium Program ST6 Project**  
**Jet Propulsion Laboratory**

Art Chmielewski has been with the Jet Propulsion Laboratory for 24 years. During his career he has seen space technology from all the sides of development. He was an engineer on several NASA missions such as Galileo, Ulysses, Cassini, MSTI, Deep Space 1. He was a manager of technology development program. He was a project manager of several space experiments and a program manager at NASA HQ of a space experiments program. Currently he is a project manager for the New Millennium Program ST6 mission where he applied several new methods of risk analysis to win his own personal fight against the pi.
